APPRECIATION

The Editorial Staff of the Mecco Thecco, representing the sentiments of the Senior Class and the students in general, wish to express its sincerest appreciation to Mrs. L. W. Kitchens and to the entire High School Faculty for their interest and untiring efforts in inaugurating the new schedule of Assemblies, Clubs and Home Room programs to enrich the life of the student body and thereby give each student in Seminole High School an opportunity to grow by participation in the activities he likes. For, without their encouragement and cooperation, Seminole High School could not have attained the high standards nor achieved such glorious results in all activities which it has undertaken. Therefore, through this medium we wish to say, "We thank you."

To Our Customers:

The Economy Company was created for the purpose of producing better school annuals at less cost to the schools. It put the ideal of mutual cooperation into business, and increasing success during the past year has proved the soundness of the ideal as a practical business proposition. The Company is great in size and yearly it will grow larger, but it realizes that service to its customers is the measure of its success and the reason for its existence and growth. As it grows, it holds firmly to the high principles of pure mutuality and equity upon which its success has been built, and faces the future with a determination to broaden its service to individual customers and through them to their communities and to the Nation.

Almost A Quarter Century

... lies between Volume 1, Number 1, of the *Seminole County News* and the present-day daily *Morning News*. The romantic story of progress of the *Morning News* is typical of this great oil metropolis in which we live.

It will be remembered that the *News* is the *Seminole* NEWSpaper that lends itself, and its columns unsparingly to every High School enterprise for the up-building of our youth.

We take pride in the fact that we are Seminole's Pioneer merchants—we opened the first stores here, and have kept pace with the times—we are still "First."

If it's in our line we have it; if we don't have it we will get it, if we don't get it, it ain't on earth.

Yours for service,
